

Instructions for Form CN-0800

PWSID	Enter the PWSID number of the water system whose results are being reported.	
Laboratory Name	Enter the name of the laboratory	
Laboratory ID	Enter the laboratory ID number.	
Sample Date	Enter the date the sample was taken (mmddyy)	
Sample Time	Enter the time the sample was taken in military format (hhmm)	
Sample Type	Enter the sample type:	D = distribution system R = Repeat Sample F = Fixed/Repaired Line in service N = New Line not in service S = Special Sample
Chlorine Residual	Enter the residual measured at the sample location.	
Location Code	Code value first assigned to a positive sample, and used to link repeat samples to the original positive sample.	
Repeat Samples	Enter "S" for samples at the same location as the original positive, "A" for samples upstream or "B" for samples downstream.	
Results	Enter "P" for positive (present) results or "N" for negative (absent) results.	
Contaminant Code	Total Coliform analyses enter "3100", Fecal coliform analyses enter "3013", for E. coli. analyses enter "3014".	
Method Code	Enter one of the following method code values indicating the type of method used to analyze the sample:	9221 – Multiple Tube Fermentation 9222 – Membrane Filtration 9223 – Coliform Presence/Absence
Analysis Date	Enter the date the sample analysis began (mmddyy)	
Analysis Time	Enter the time the sample analysis began in military format (hhmm). Sample holding time is 30 hours from time of collection.
